PART I

BOLOGNA PROCESS

TEMPLATE FOR NATIONAL REPORTS: 2007-2009

Notes:

BFUG members are strongly encouraged to consult other stakeholders about the contents of their National Report.

Please complete your National Report in English using this template and return it to the Secretariat by email. Where appropriate, please include precise web references to legislation or other documentation. Please add comments as appropriate under each question to describe the current situation. Please try to keep text brief, while aiming to answer all questions comprehensively.

National Reports will be posted on the Bologna website in their original form.

Information from National Reports will form the basis of the Stocktaking Report to be presented to Ministers when they meet in April 2009.

1. Main developments since London 2007

Please describe the important developments relating to the Bologna Process, including legislative reforms and changes in institutional structures, since the London meeting in 2007.

The most important developments since the London meeting are:
- Ratification by our Parliament (Consell General) the Lisbon Convention and the instrument entered in force June of 2008.
- Creation of the working group to develop the Quality Assurance Agency as well as some conventions with French QAA and Spanish QAA
- The draft of decree of Government about the National Qualification Framework, ready to be accepted by our authorities
- The draft of decree of Government about definitions of ECTS, ready to be accepted by our authorities
- The draft of decree of Government about Recognition of Diplomas, ready to be accepted by our authorities
- The draft of the law about Research and Development, ready to be accepted by our authorities
- …………………
2. Partnership
Please describe the structure which oversees the implementation of the Bologna Process in your country.

The Government, as its ministry is a representative of the “Consell Universitari” of the University of Andorra. They are aware of the implementation of the Bologna Process and its advances
As far as, new Law regarding universities has entered, the government is developing the new legal framework, and many regulatory decrees are in project. Nearly all of these drafts are ready to be approved by our authorities.

a) Does your country have a national working group for Bologna follow-up ¹
   Yes ☒  No ☐

b) Does your national Bologna follow-up group include representatives of

DEGREE SYSTEM

3. Stage of implementation of the first and second cycle

a) Please describe the progress made towards introducing the first and second cycles.

The new Law describes that the new structure has three main cycles, following the bologna process system (Bachelor, master and doctorat). The length of each cycle are defined in 180, 300, for the bachelor and master, respectively.

b) Please give the percentage of the total number of all students below doctoral level enrolled in the two cycle degree system in 2008/09.

</table>

c) Please add comments which accurately describe the current situation regarding implementation of the two cycle system in your country:

In order to develop with more precision the purposes of the law, three draft of regulatory decrees are in process to be approved:

- One describing the ECTS as learning outcomes with the relation in percentage of skills, knowledge, home work, etc
- One will describe the process to create new degrees to be accepted, become official, in order to be incorporate in the new QF, and the process to do an evaluation ex-ante regarding the studies
- One explaining the new QF, related to the new degree structure, with the ECTS, and descriptors of level in terms of learning outcomes, and how new diplomas are added in the QF (contents, etc.)

4. Stage of implementation of the third cycle

Please describe the progress made towards implementing doctoral studies as the third Bologna cycle.

Please include:

- the percentage of doctoral candidates following structured doctoral programmes including both taught courses and independent research
- the normal length of full-time doctoral studies
- other elements apart from independent research that are included in doctoral study programmes

---

3. “All” = all students who could be involved in 2-cycle system i.e. NOT those in doctoral programmes and NOT those in short HE programmes. NB Students of ALL study fields are taken into account

4. If countries have more recent data available after November 1, they can provide an update but no later than January 15, 2009

5. E.g. taught courses in the chosen discipline, other taught courses, teaching activities (if these are required as part of doctoral studies), etc.
• the supervisory and assessment procedures for doctoral studies
• information on whether doctoral studies are included in your country’s qualifications framework and linked to learning outcomes
• information on whether interdisciplinary training and the development of transferable skills are integrated in doctoral studies
• information on whether credit points are used in measuring workload in doctoral studies.
• Information on the status of the doctoral students (students, early stage researchers, both)

In the year 2008, the decree of Government regarding the Doctoral Studies has been issued. Decret de creació del títol de doctor. Since September the University of Andorra will start Doctoral Studies in cooperation with foreign Universities (Vives Network, all universities of Catalan Language area, such as University of Barcelona, Perpignan, Toulouse, Valencia, Illes Balears, etc…)
5. Relationship between higher education and research

a) Please describe the main trends in the role of higher education institutions in research in your country.

The Government gives some funds in order to develop research to the University and the Institut d’Estudis Andorrans (Public Funding of research institution). However, the HEI should improve in their valuable scientific results. The University of Andorra has a program research since 2006.

b) Please outline any measures to improve co-operation between higher education institutions and other private and public institutions that undertake research. Please include:

- percentage of GDP spent on research
  - from public funds
  - from private funds
- total annual national research expenditure (expressed in national currency)
  - from public funds
  - from private funds
- percentage of research carried out in higher education institutions (in terms of funding)
- details of the funding mechanisms for doctoral students in your country

In Andorra, there is no way to calculate the GDP.

c) Is there any tracking system to follow the further career of doctoral graduates?

Yes ☒ No ☐ If Yes, please specify:

Yes, there is a tracking system carried by the Department of Research of the H.E. Govern d’Andorra. This tracking system is based on a volunteer database. This volunteer collected data is compiled on and managed by the government. There is also a personal relationship with nearly all researcher form Andorra, due to its small dimension.

6. Access and admission to the next cycle

Describe the arrangements for access between the first and second cycles and between the second and third cycles.

6.1 Access and admission between the first and second cycles

Please indicate:

---

6 Access as defined in the Lisbon Recognition Convention: “Access: the right of qualified candidates to apply and be considered for admission to higher education.”
a) the percentage of first cycle qualifications that give access to the second cycle

All degrees given at University of Andorra gives access to the second cycle, but there are no Bologna second cycle in our University at the moment. Due to we are implementing the three level Bologna degrees, implanting the new rules to create new diplomas that substitute the ancient degrees.

At the moment new masters studies are not created. Our second cycle, they still are the ancient ones.

b) any first cycle qualifications that do not give access to the second cycle (please specify)

c) any special requirements for access to a second cycle programme in the same field of studies: please tick whether graduates must:
   sit entrance exam   Yes □ No □ In some cases □
   complete additional courses    Yes □ No □ In some cases □
   have work experience    Yes □ No □ In some cases □

   If the answer to the last point is yes, please specify what type of work experience is required:

d) any further special requirements for access to a second cycle programme in the same field of studies

e) to which students the above special requirements apply (please tick):
   all students    Yes □ No □
   holders of particular first cycle qualifications   Yes □ No □
   students of the same field coming from other HEIs   Yes □ No □

f) which of the requirements apply to students coming from other fields of studies (please tick):
   entrance exam   Yes □ No □ In some cases □
   additional courses    Yes □ No □ In some cases □
   work experience    Yes □ No □ In some cases □

6.2 Access and admission between the second and third cycles

Please indicate:

a) the percentage of second cycle qualifications that give access to the third cycle

In the year 2008, BOPA 20036 30/04/2008 Decret de creació del títol de doctor the doctoral studies have been developed in our country. As far as it is the first year, the access is given to any person with the past second cycle such as “llicenciatura” or equivalent to “Bologna” Second Cycle
b) any second cycle qualifications that do not give access to the third cycle (please specify)

The acceptance in the doctoral degree belongs to the University if the candidate has achieved a second cycle level or equivalent, depending on the quality of the purpose thesis.

c) any measures planned to remove obstacles between cycles

There are no obstacles in the access as itself. The university has to accept the candidate to pursue a Ph.D. Thesis on its doctoral program.
7. Employability of graduates/ cooperation with employers

a) What measures are being taken to enhance the employability of graduates with bachelor qualifications? Please include the most recent statistical data on the employment status of graduates of all cycles.

If your higher education institutions also provide professional bachelor programmes, please provide employability data for both types of bachelors separately

In Andorra, there are no professional bachelors. There are only academic bachelors, with a nearly full employability.

So far the new law of high education has approved, a new legal framework relating the employability will be set on, in order to create the basis of the employability of bachelors done at our university.

b) To what extent there is a dialogue in your country between higher education institutions and employers on:
   - curriculum design, work placements and international experience
     Significant ☐ Some ☒ A little ☐ None ☐
   - accreditation/quality assurance
     Significant ☐ Some ☐ A little ☒ None ☐
   - university governance
     Significant ☐ Some ☒ A little ☐ None ☐

c) Are first cycle graduates able to pursue careers in the public service on an equal footing with other graduates?
   Yes ☒ No ☐ In some cases ☐

d) Have you aligned recruitment procedures and career structures in the public service to take account of the Bologna changes?
   Yes ☒ No ☐ In some cases ☐

If no, or in some cases only, please explain the current situation:
8. Implementation of national qualifications framework

Please answer the questions below. Please add comments which accurately describe the current situation in your country.

a) Has the national qualifications framework been prepared?

| Yes ☒ | No ☐ |

*Comment* Ready to be approved by our authorities

b) Does the framework or proposed framework include generic descriptors for each cycle based on learning outcomes and competences?

| Yes ☒ | No ☐ |

*Comment* The drafts includes and describes the diploma done at our University using the Dublin descriptors, and learning outcomes

c) Does it include ECTS credit ranges for the first and second cycle?

| Yes ☒ | No ☐ |

*Comment* Yes the draft includes the credit ranges.

d) Has the NQF been nationally discussed with all stakeholders?

| Yes ☐ | No ☒ |

*Comment* At this point, NQF draft was explained, shown and discussed to the University

If the answer to d) is No, please answer question e):

e) has a timetable been agreed for consultations with all stakeholders?

| Yes ☐ | No ☒ |

*Comment* The timetable was set, but the starting day is pospossed. We guess, stakeholders’ presentation could follow the scheduling plan and to be finished before January of 2009

If the answer to d) is Yes, please answer the following questions:

f) Are all formal arrangements decisions for implementing the framework in place and have the necessary formal decisions for establishing the framework been taken?

| Yes ☐ | No ☒ |

*Comment* The scheduling decision plan become difficult to predict due to the proximity of the national elections. We should follow the process day by day depending of the formal decisions will be taken.

7 A national framework of qualifications compatible with the overarching framework of qualifications of the EHEA
g) How far has the implementation of the national qualifications framework progressed *(please tick one)*

- The framework is fully implemented. All qualifications have been added to the NQF through a QA procedure (e.g. accreditation) □
- There is significant progress on implementing the framework □
- The work of describing all qualifications in terms of learning outcomes and competencies has been completed ✓
- There is a timetable for implementation and the work has started □
- Work on implementing the framework has not yet started but a timetable for implementation has been agreed □
- Work on implementing the framework has not yet started and there is no timetable for implementation □

**Comment** The draft has done, and it’s ready to be presented to the stakeholders, and government members, in order to be approved by our authorities

h) What is the stage of progress on the self-certification of compatibility with the EHEA framework?

Completed □  Started, but not yet completed □  Not yet started ✓

**Comment** It must be firstly approved by our authorities and then, we continue working on self-certification

i) Has the self-certification report been published?

Yes □  No ✓

**Comment**

*Please add any additional comments if necessary:*

**Comment**

9. Reviewing the QA system against the ESG and national support for implementation

a) Has your national QA system been reviewed against the ESG?

- Yes □
- No □
- Not yet, but such a review is planned (Please specify time) □

Ongeldige bladwijzerwijzing.

b) If a review has been undertaken or is planned, please give further details of the review process.

The creation of the agency has just been done. Some regulations regarding the new law of universities and the agency competences should be regulated by a new law, specifically to the QA.

c) If a review process has been undertaken, did it result in any of the following:

Stakeholder consultation on changes required to the national QA system?

- Yes □
- No □

The introduction of specific financial or other incentives aimed at improving the internal quality assurance processes in institutions?

- Yes □
- No □

If Yes, please give details of these incentives:

- Other measures

- Yes □
- No □

If Yes, please outline these measures

The autonomy should be described more and best legally written by decree or by law. The small dimension of our QA obliges to have a strong cooperation with other agencies (i.e. French agency-AERES and Spanish agency- ANECA). Thus, the aim is to be included in the EQAR, as soon as, the external reviews have been done.

d) If incentives and/or other measures have been introduced with the aim of improving the internal quality assurance processes in institutions, has any evidence of the impact of these changes been gathered?

- Yes □
- No □

If Yes, please give details of how evidence of the impact of the changes was gathered, and of the main outcomes that it demonstrates

   - Some HEIs □
   - No HEIs ☑

   Please describe how the above is achieved.

| Additional information if necessary |

e) How many HEIs publish up to date, impartial and objective information about the programmes and awards offered?
   - All HEIs □
   - Most HEIs □
   - Some HEIs □
   - No HEIs ☑
10. Stage of development of external quality assurance system

Describe the external quality assurance system operating in your country.

Please include:

a) the stage of implementation of your external quality assurance system

| The recently created Quality Assessment Agency is working on some | convention with external and international Agency such as the French and Spanish Agency. Due to its small dimensions, there is no possibility to compile the such amount of external evaluators and independent specialist and quality processes. That's why, the needing of these important conventions |

b) does your external quality assurance system operate at a national level;

Yes ☒  No ☐

If No, please specify:

If No, please specify which types of institutions or programmes are not covered by your external quality assurance system:

c) does your external quality assurance system cover all higher education

Yes ☐  No ☒

If No, please specify which types of institutions or programmes are not covered by your external quality assurance system:

| |

d) which of the following elements are included in your external quality assurance system:

- self-assessment report ☒  No ☐
- external review ☐  No ☒
- publication of results ☐  No ☒
- follow-up procedures ☐  No ☒

| |

e) has a peer review of the national agency(ies) according to the Standards and Guidelines for QA in the EHEA already taken place

Yes ☐  No ☒

If No is there a date set for the review? ☐ Yes (please specify date _____)  No ☒

We are working for some conventions with foreign and neighbours agencies.

10 Higher education: all types of courses of study or sets of courses of study, training or training for research at the post secondary level which are recognised by the relevant authorities as belonging to a country’s higher education system.
11. Level of student participation
From the following, please indicate all aspects of quality assurance in which students are involved:

a) in governance of national agencies for QA.
   Yes ☐ No ☑ In some cases ☑

b) as full members in external review teams
   Yes ☑ No ☐ In some cases ☑

c) as observers in external review teams
   Yes ☑ No ☐ In some cases ☑

d) as part of the decision making process for external reviews
   Yes ☑ No ☐ In some cases ☑

e) in the consultation process during external reviews (e.g. arrangements for external reviewers to consult with students)
   Yes ☑ No ☐ In some cases ☑

f) in internal quality assurance (e.g. periodic review of programmes)
   Yes ☑ No ☐ In some cases ☑

g) in preparation of self-assessment reports.
   Yes ☑ No ☐ In some cases ☑

h) in follow-up procedures:
   Yes ☑ No ☐ In some cases ☑

Please add any additional comments, especially if students are not involved in any of the aspects:

The involvement of students is done in the regulatory rules, but, however, sometimes is very difficult to make them work in the governance panels.
In other hand those items are the results of the legal involvement of the students, but right now as the external procedures are not implanted, the participation it’s only on the rules.

12. Level of international participation
In which of the following is there international participation in quality assurance

a) the governance of national agencies for quality assurance
   Yes ☐ No ☑ In some cases ☑

b) the external evaluation of national quality assurance agencies
   Yes ☑ No ☐ In some cases ☑

c) teams for external review of institutions or programmes, either as members or observers
   Yes ☑ No ☐ In some cases ☑

d) membership of ENQA
   Yes ☑ No ☐ In some cases ☑

e) membership of any other international network
   Yes ☑ No ☐ If Yes, please specify:

We only have started contacts with AERES in France and ANEQA of Spain, but nothing has finally established. Our idea is to arrange the NQA to have the standards; it’s complicate due to the little dimension of our country, that’s why we
need to work in cooperation with others NQA as AERES or ANEQA, if we want to be accepted by ENQA.

Please add any additional comments, especially if there is no international involvement in any of the aspects:

It has just been created. No time for any involvement in international teams or networks
13. Stage of implementation of Diploma Supplement

Describe the stage of implementation of the Diploma Supplement in your country. Please include the percentage of all students graduating in 2009 who will receive a Diploma Supplement (if less than 100%, please explain).

A new decree regulating the Diploma Supplement was approved the 27th-8-2008, Decret del 27-8-2008 de modificació del decret regulador de l'expedició del suplement europeu al diploma

a) Is the Diploma Supplement issued to students graduating from:
- 1st cycle programmes
- 2nd cycle programmes
- 3rd cycle programmes
- remaining “old type” programmes
- short higher education programmes

b) which of the following apply to Diploma Supplements issued in your country:
- issued in a widely spoken European language
- issued free of charge
- issued automatically
- corresponds to the EU/CoE/UNESCO Diploma Supplement format
- a national Diploma Supplement is used that is different from the EU/CoE/UNESCO Diploma Supplement format

13.1. Use of Diploma Supplement for recognition of qualifications

Please describe the way in which the Diploma Supplement is used for the recognition of foreign qualifications (or studies). Please comment in particular on the following aspects, giving references to any relevant websites and documents:

a) The Diploma Supplement is used as the reference document when admitting holders of foreign qualifications to the second and third cycles.

b) Holders of foreign qualifications who present a Diploma Supplement in a widely spoken language do not have to provide official translations of their qualifications.

13.1.1. Comment

We accept: Catalan, Spanish, French, English and Portuguese
d) Specific action has been taken at a National and Institutional level to enhance the use of the Diploma Supplement as a communication tool towards the labour market

Yes ☐ No ☒

Comment A program of communication will set up at the moment of the regulation of recognition will start, in enhance with the NQF

14. National implementation of the principles of the Lisbon Recognition Convention
Describe the stage of implementation of the main principles and later supplementary documents\(^{11}\) of the Lisbon Recognition Convention.

a) Does appropriate legislation comply with the Lisbon Convention?
Yes ☐ No ☒

If Yes, please demonstrate how it is achieved: A decree related to the Lisbon Convention will be set up before ending 2008. This legal tool will comply with the Recommendations on the Criteria and Procedures for Recognition of the Lisbon Convention, and will develop a criteria procedure of other non academic recognition (regulated professions, etc).

The draft will comply with the Lisbon Convention good practices.

b) Does appropriate legislation comply with the later Supplementary Documents:

   d) In which subject areas/disciplines is joint degree/programme co-operation most 
      widespread (please list if possible)? 

---

15 A joint degree is a single degree certificate awarded by two or more institutions, where the 
single degree certificate is valid without being supplemented by any additional national degree 
certificate.
The joint degrees are with the Universitat Oberta de Catalunya, and other French and Spanish universities, many of them are in cooperation among Universities endorsed by the Andorran Government.

e) Estimate the number of joint programmes in your country

12

f) Describe any actions being taken to encourage or allow joint programmes.

Universities take part with the backing of Andorran Government

g) Are there any specific support systems for students to encourage joint degree cooperation?

MOBILITY

19. Removing obstacles to student and staff mobility

a) What measures have been taken by your country both at governmental and institutional level to enhance student and staff mobility and overcome main obstacles?

Since 1992, Govern d’Andorra gives grants to the student to study abroad, with no compulsory complaints, only accepting the legal status of citizen, and regarding meritocratical and social issues. Since year 2006, there is a new third cycle grant with the same requirements. However, these grants have also given, using only meritocratical items.

b) Have arrangements for visas, residence and work permits been amended to enhance student and staff mobility?

Yes ☒ No ☐

Please add appropriate comments to describe the current situation:
It is a mandatory of the Andorran government to have the visa for living in Andorra, but due to our physical dimension, the students who come from the border cities don't need visa.

c) Is there financial support for national and foreign mobile students and staff?

Yes ☒ No ☐

Please add appropriate comments to describe the current situation:
All students with legal status in Andorra can obtain some funding in grants or low-credit loans, given by Government with no problem at all, compatible with the studies outside of Andorra.
Andorran government also gives grants to the students that follow a mobile program (programs of the Andorran university that obliges to carrying out a number of credits or a number of moths)

d) Are study periods taken abroad recognised?
20. Portability of loans and grants
   a) Are portable grants available in your country?  
      Yes ☒ No ☐
      If No, describe any measures being taken to increase the portability of grants.
   b) Are portable loans available in your country?  
      Yes ☒ No ☐
      If No, describe any measures being taken to increase the portability of loans.

THE ATTRACTIVENESS OF THE EHEA
AND COOPERATION WITH OTHER PARTS OF THE WORLD

21. Implementation of strategy
   a) Describe any measures being taken by your country to implement the strategy "European Higher Education in a Global Setting"
      Andorra has a strong cooperation with its neighbours, principally.
   b) What has your country done to:
      i) improve information on the EHEA outside Europe?
      In the US and strong relationship with Quebec.
      ii) promote European higher education, enhance its world-wide attractiveness and competitiveness?
      Yes, studies of Catalan in Czech Republic, and US. Strong relationship with Quebec.
      iii) Strengthen cooperation based on partnership in higher education?
iv) intensify policy dialogue with partners from other world regions?

v) improve recognition of qualifications with other world regions?
Mainly over all EHEA regions and we will start with South American countries

c) What measures have been taken in your country to implement the OECD/UNESCO Guidelines for Quality Provision in Cross-border Higher Education? Please describe.

Our recognition decree related with the Lisbon Convention will set up the guidelines, but it’s a project.

d) Are the OECD/UNESCO Guidelines for Quality Provision in Cross-border Higher Education applied to

i) cross-border provision of your education programmes? Yes ☐ No ☐

If Yes please explain in what ways the guidelines are applied

ii) incoming higher education provision? Yes ☐ No ☐

If Yes please explain in what ways the guidelines are applied

FUTURE CHALLENGES

22. Main challenges for higher education

Give an indication of the main challenges ahead for higher education and the Bologna Process in your country in the short and long term.

Our country has been deeply involved in all changes that imply the Bologna Process. Up to now, and some years later, our principal aim is to establish and consolidate the wholes regulatory decrees and mandatory rules. All of them are indispensable for a small country such us. Everything has to be fixed and very well conformed. Moreover, the neighbourhood with Spain and France must be excellent adapting both educational systems into a very small community. That is a huge challenge.

As a new law has entered in force this summer, the main work is to develop it.
PART II

TEMPLATE for NATIONAL STRATEGIES
on THE SOCIAL DIMENSION of THE BOLOGNA PROCESS

Practical instruction

The answers to this questionnaire will be included in the general national report on the implementation of the Bologna Process and reach the Bologna Secretariat (e-mail: secr@bologna2009benelux.org) by November 1, 2008. Please do not exceed the length of 10 pages for the national strategy on social dimension.

The questions in Annex C are not included in the questionnaire itself but are to be considered as reference material which could facilitate the drafting of the information on the national strategy.

I. Definition of the Social Dimension in the London Communiqué

“We strive for the societal goal that the student body entering, participating in and completing higher education should reflect the diversity of our populations. We therefore pledge to take action to widen participation at all levels on the basis of equal opportunity.”

II. AS IS SITUATION (Current state of affairs)

1. Which groups in society are still underrepresented in your national higher education system? What are the main obstacles to participative equity in terms of access and successful completion of studies?

None

2. Please describe what measures your Government is taking to increase the representation of the groups identified in the question above. Please refer to the possible actions listed in the Bologna Working Group report on the Social Dimension and Mobility (see Annexes A and B to this document).

The foreigner students could be the only group. We are thinking in changes to this issue, because the students that want to come to Andorra to do high education practices needs the visa as a workers, that means to establish legal status as a worker in Andorra.

3. Describe what measures are being taken by the Government to help students complete their studies without obstacles related to their social or economic background. Again, please refer to the possible actions listed in the Bologna Working Group report on the Social Dimension and Mobility (see Annexes A and B to this document). Please indicate whether the measures apply to all students or only to certain levels or types of higher education institutions.

We have a grants law that gives the same opportunities to students to study in Andorra or abroad. And this year the government has increased the budget in a 15%. 

2
4. Does your country statistical and/or other research evidence at disposal to underpin the identification of underrepresented groups and the main obstacles to participative equity (see Q 1)? If yes, please specify. Or regular student survey organised with the aim to provide data concerning the social dimension?

The University of Andorra has created the ombudsman student defender as a person that can help the different situations of underrepresented groups.

III. PROCESS TOWARDS A MORE INCLUSIVE HIGHER EDUCATION SYSTEM (strategy for the future)

5. How do you plan to tackle the challenges identified under Q 1 in the near future (2008-2010)?

We are in process to review the grant law, for to have more accessible requirements, and be linked to another governmental helps, in order to have a complete view of families with socioeconomics issues.

In other way we want to clarify more different kind of grants that the government gives. We want to distinguish the grants given by socioeconomic criteria and, the grants given by meritocratic criteria, and the grants and loans to study abroad in a strategically fields.

These topics are no very well clarified at the moment and all of them have been taking account as the socioeconomic criteria.

This modification of our law will be one of the main issues in the next quarter period, If the next government will take into account, because we will have elections next April.

We have no clarified a calendar due to these elections, and the possible importance position of the political programs in the next governmental period.

(a) Which concrete goals do you want to achieve?
(b) What actions are planned for the different target group identified above to overcome the obstacles in access, participation and completion of studies by students? Please refer to Annex B and to the suggested approach outlined in the 2007 report from the Bologna Process Working Group on the Social Dimension and Mobility (Annex C to this document).
(c) is there a specific budget for these measures for underrepresented groups? If yes, please provide details

6. What arrangements are planned for monitoring progress towards more equitable access, participation and success?

None, it will depends of the next government

IV. INFORMATION ON THE NATIONAL RESPONSIBILITY FOR THE PREPARATION, IMPLEMENTATION AND EVALUATION OF THE NATIONAL STRATEGIES

2
Please indicate which authority or other actor is responsible for the preparation, implementation and evaluation of the national strategy and describe the way in which the various stakeholders are involved. Did your country designate (a) contact point(s) for the national strategy? If so, please add the coordinates of the national contact point(s).

We have ideas, but it’s difficult and strategically complex to put these ideas on a table now in a so nearest electoral process, because can be understood as a political issue, and no as a policy.
ANNEX A

• Student evaluations of courses, programmes and institutions, including action plans and follow-up of actions taken

Finances in order to start and complete studies
• Financial and legal advice for students
• Appropriate and coordinated national financial support systems that are transparent
• Targeted support for disadvantaged groups as defined nationally
• Support measures for students with children
ANNEX C
Suggested approach of the work on national strategies on the social dimension
In time for the next ministerial meeting in 2009 the Working Group suggests that the countries should report to the BFUG on their national strategies for the social dimension, including action plans and measures to show their impact. All stakeholders concerned should actively participate in and support this work at the national level.

The development of a strategy should be followed by a national action plan that includes monitoring mechanisms. Ideally, the strategy and action plan will be based on a national debate on the social dimension and the future priorities of that country depending on the current situation. In order to facilitate a national debate on the social dimension the Working Group proposes the following structure and topics for such a debate:

- Measures to promote equal opportunities
  What obstacles are there to equal opportunities within higher education? What protection is there if a student is discriminated when applying for, being admitted to, or carrying out studies? Is there a framework for appeal? What action would be the most effective to achieve equal opportunities in higher education?

- Measures to widen access to and participation in higher education for underrepresented groups (gender, ethnic origin, immigration, socio-economic status and background, disability, geography etc.)
  What groups are under represented in your national higher education system today? Is there data to show access to higher education by gender, socio-economic background, disabilities, prior immigration, region etc? What obstacles to widened access and participation are there within your higher education system? At other education levels? What actions would be appropriate for the different groups to achieve widened access? Are targeted outreach activities needed?

- Study environment that enhances the quality of the student experience
  A, Provision of academic services
  What kind of academic or career guidance is provided for the students in your country? What is the student – staff ratio? Are there retention measures adapted to different groups or individuals with different needs? Is the academic success of the student tracked? What would be/has proven to be the most efficient retention measures? What kind of study environment is there at the higher education institutions? Do student have access to information, electronically or by other means? What is the condition of libraries, lecture halls and seminar rooms? How do students in your country live? Is housing available, of acceptable standard and affordable? Is targeted support provided or needed for specific student groups? Is counselling available if students run in to personal difficulties?

- Measures to increase formal and actual student influence on and participation in higher education governance and other higher education issues
  Are there formal provisions for student influence and participation at all governance levels, in consultative as well as decision-making bodies? Are there formal provisions for student evaluation of the education? Are the formal regulations followed-up with actual practices? Are there informal ways of student influence and participation as well? Do students have an influence on all issues related to higher education? Are students aware of their rights? Do students have organisations that
can organise elections to fill elective posts? Is it possible to find enough candidates to fill the posts available? If not – how could this be improved?

- Finances in order to start and complete studies

What kind of information and guidance is provided for students regarding financial issues? How does the average student make his or her living during studies? What kind of state support is provided? Is it appropriate for all groups and individuals? Do certain groups run the risk of being excluded from, or not able to finish their studies, due to financial reasons? Which are these groups or individuals? What could be done to help them? Are students informed about possible employment possibilities after finishing their studies? How is the labour-market relevance of the studies secured? Are former graduates tracked to follow-up their employment rates?

- Monitoring: The participating countries should establish national measures to monitor and evaluate the impact of the national strategy and action plan. What monitoring mechanisms would be the most appropriate? How could success in strengthening the social dimension be measured short-term and long-term? What quantitative and qualitative data are needed? How is the responsibility for monitoring and evaluation allocated and divided? Are there student surveys carried out to measure the impact of a social dimension strategy? How can student surveys be used in this work?

- Stakeholder involvement

Which stakeholders should be involved in the development of a strategy and an action plan? What should be the responsibility of the different stakeholders when carrying out the agreed strategy and plan?
